HP Docket No. 10016783-1

AMENDMENTS TO THE SPECIFICATION

Please add the following new paragraph after the paragraph ending on line 19 of page 9:

Accordingly, in some embodiments, the reference may specify some of all of billing information, print format information, a number of copies of the print content to be printed by a print device, and a print format data specifying that the print content should be printed beginning on a new sheet of paper. In addition, the reference may be included in a communication signal formatted according to a Bluetooth communication protocol.
